

USER INSTRUCTIONS

LED 140W

P/N: 3500004

IMPORTANT!

Carefully read these safety guidelines before using the LED 140W. Keep this document in a secure place for future reference.

Technical Specifications:

- Safety Class: II
- IP Rating: IP65
- Nominal Voltage: 220-240 V ~ 50/60 Hz
- Operating Temperature: -20°C to +40°C

Part number	Wattage	Cable	Dimensions (mm)	Weight (kg)	Efficiency	Power supply
3500004	47W	H07RN-F2G1.0	261x102x201	1.83	>0.9	0.2-0.3 A

Before Use:

This LED 140W is designed for both indoor and outdoor lighting purposes. It is pre-wired with a connection cable and includes a safety plug. When using the light outdoors with an EU plug, ensure it is connected to an IPX4-rated socket. BS and Swiss plugs are not waterproof and should only be used indoors.

Operation:

The ON/OFF switch is located at the back of the light. Its adjustable arm allows you to set the lighting angle.

- Coverage Area: <15m²
- Mounting Height: <3m

Safety Guidelines:

1. Confirm the power supply voltage matches the floodlight's requirements before turning it on.
2. Always check for any signs of damage to the light or power cable before use.

Do not operate the LED 140W if damage is detected.

- Warning: A damaged light or cable poses a severe risk of electric shock.
3. Avoid using the LED 140W in areas containing flammable liquids, gases, or combustible dust, as this may result in explosion hazards.
 4. Do not look directly into the LEDs, as the light is extremely intense.
 5. Repairs should only be performed by a qualified service technician to ensure safety.
 6. Ensure the LED 140W is securely mounted, and that the cable is not pinched, crushed, or damaged.
 7. Keep children away from the LED 140W.

Maintenance:

LED replacement must be performed only by the manufacturer, its service team, or another authorized professional.

- Warning: Never open the light while the power cable is connected to avoid the risk of electric shock.

Cleaning:

Do not use solvents, abrasive cleaners, or similar substances. Clean the light with a dry or slightly damp cloth.

Disposal:

Electrical devices must be disposed of in an environmentally responsible manner.

- Do not discard electrical equipment with household waste.
- Under Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), such items must be collected separately for recycling. Contact your local waste authority for proper disposal instructions.
