Operating Temperature Range:	-10° to +40°

**Single Lamp Specifications:**

Input:	AC: 100-240V, 50Hz / DC: 18V-22V
Power Consumption:	85W
Luminous Output:	12,000 lm
Dimensions (L/W/H):	414 x 247 x 247 mm
Net Weight:	2.8 kg

**Intended Use:**

This floodlight is designed for indoor and outdoor lighting purposes.

**Safety Instructions:**

1. Before use, ensure that the power supply voltage matches the lamp's requirements.
2. Before charging, inspect the light and power cable for any damage. Do not use the lamp if any issues are detected.
3. Do not operate the lamp in environments where explosive substances, such as flammable liquids, gases, or dust, are present, as this poses a serious safety risk.
4. Avoid looking directly into the LED light, as it is extremely bright.

**Maintenance:**

PLEASE NOTE: For light sources that cannot be replaced by the user, only the manufacturer, authorized service agents, or similarly qualified professionals should replace the light source.

Never open the lamp while it is connected to a power supply.

**Cleaning:**

Do not use solvents, abrasive cleaners, or corrosive substances. Clean the lamp only with a dry or slightly damp cloth.

**Disposal:**

Dispose of electrical devices in an environmentally friendly manner.  
Do not discard electrical equipment with regular household waste.

Under European Directive 2012/19/EU, electrical and electronic devices must be collected separately for recycling.

For details on proper disposal methods, contact your local waste management authority.
