

USER INSTRUCTIONS

LED 360°, 85 W

P/N: 3500002

Instruction Manual

LED 360°

Important:

Please read these instructions carefully before installing the light and store them in a safe place for future reference.

Technical Specifications:

| | |
|------------------------------|---------------------|
| Protection Rating: | IP54 |
| Safety Class: | I |
| Nominal Voltage: | 220–240 V~ 50/60 Hz |
| Operating Temperature Range: | -20° to +40° |

| Part number | Wattage | Cable | Dimensions (mm) | Weight (kg) | Efficiency | Power supply |
|-------------|---------|---------------|-----------------|-------------|------------|--------------|
| 3500002 | 85W | H07RN-F 3G1.5 | 240/209/194 | 2.08 | >0.9 | 0.2-0.5 A |

Intended Use:

This LED light is suitable for both indoor and outdoor lighting purposes. It is pre-wired and equipped with a connection cable and a safety plug.

For outdoor use with an EU plug, ensure that it is connected to an IPX4-rated socket. BS and Swiss plugs are intended for indoor use only, as they are not waterproof.

The socket outlet on the luminaire should not exceed the following limits:

| | |
|----------------|-----------------|
| Rated Power: | Less than 2200W |
| Rated Voltage: | Maximum 250V~ |
| Rated Current: | Maximum 10A |

Any use beyond these specifications or any modifications to the device is strictly prohibited.

Safety Instructions:

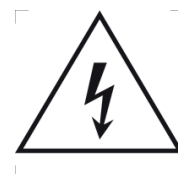

1. Ensure that the correct voltage is available before switching on the light.
2. Check the light and power cable for any signs of damage before each use. Do not operate the lamp if any damage is detected. **Caution: A damaged light or power cable can pose a life-threatening risk of electric shock.**
3. Do not use the lamp in environments where explosive substances, such as flammable liquids, gases, or dust, are present. This can be extremely hazardous.
4. Avoid looking directly into the LED light, as it is intensely bright.
5. If the external flexible cable or cord is damaged, it must only be replaced by the manufacturer, an authorized service provider, or a similarly qualified individual to prevent potential hazards.
6. Ensure the lamp is securely installed and that the cable is not pinched, twisted, or otherwise damaged.
7. Keep children away from the lamp, as they may not understand the risks of electric shock.

Maintenance:

PLEASE NOTE: For light sources that are not user-replaceable, the light source in this luminaire must only be replaced by the manufacturer, their service personnel, or a qualified technician.

Never open the lamp while the power supply is connected.

Caution: Risk of electric shock. (Source: IEC60417-6042 (2011-11))

Cleaning:

Do not use solvents, abrasive cleaning agents, or corrosive substances. Only clean the lamp with a dry or slightly damp cloth.

Disposal:

Dispose of electrical devices in an environmentally friendly manner.
Do not dispose of electrical equipment with regular household waste.

In accordance with European Directive 2012/19/EU, electrical and electronic devices must be collected separately and recycled.

Contact your local waste management authority for information on proper disposal options for old devices.
